

# X60 M7 Basic

Art. No. 80.50.407

## Waste separation system for pre-existing rails

With low kitchen cabinets, you don't have to do without large additional bins. Our new system variant for 600mm wide cabinets was designed for lower installation heights, and nevertheless has an extra-large recycling and dust bin. The 16-litre bin can accommodate larger quantities of organic waste, more voluminous recyclables, or cleaning utensils. In addition, the set includes the 35-litre main bin for the waste bag, and the basic drawer for further storage space above the waste separation bin.

- ▶ X-LINE waste system for 600 mm cabinet width and lower kitchen base units.
- ▶ More storage space and room for recyclables in the 16-litre additional bin.
- ▶ 35-litre main bin with unique X-LINE technology for easy bag clamping and even fuller waste bags.
- ▶ Basic drawer for additional storage space above the waste separation bin.
