

X55 M17 Basic

Art. No. 80.50.309

Waste separation system for pre-existing rails

This X-LINE set is designed for households that prefer waste collection with 17-litre waste bags and therefore a smaller main bin. The main bin of this waste system, which only holds 20 litres, allows even more space for recyclables. Two 10-litre additional bins offer space for organic waste, coffee capsules and dishwasher tablets, also for cleaning utensils, etc. This waste system is designed for low height kitchen base units with a cabinet width of 550 mm, and includes a basic drawer for additional storage space.

- ▶ X-LINE waste system for 550 mm cabinet width and low drawer extensions.
- ▶ 20-litre main bin for waste collection in 17-litre waste bags.
- ▶ Two additional 10-litre bins for extra storage space and various recyclables.
- ▶ Basic drawer for additional storage space.
