

D50 M1

Art.-No. 80.71.102

Waste system for hinged doors

This waste system for hinged doors was developed for kitchen cabinets from 500 mm wide and is also suitable for lower kitchen base units thanks to the reduced height. Despite the reduced height, the large main bin allows 35 litre waste bags to be filled to the brim. The system is completed by the storage lid, which offers additional storage space for cleaning utensils and co.

- ▶ Additional storage space thanks to the storage lid for storing bag rolls, cleaning utensils and more
- ▶ Easy to remove thanks to the newly developed bolt for fastening the bin
- ▶ The set can be used with the divider (accessory), allowing several waste bags to be clamped at the same time
